Polity Prelims Consolidation II

The machinery chapters (amendment to the PM), the deferred accountability bodies, and Ch. 53–95: elections, parties, landmark judgments, doctrines

What this packet is for

Friday 13 November 2026, 4–5 hours. Friday has one block that Thursday did not: the **deferred bodies** (NITI, NHRC, CIC, CVC, CBI, Lokpal and others) were never studied. You read them first, notes-first, and then test them.

Everything else is test first, repair second. The machinery chapters (amendment, federalism, emergency) are **Backlog / Red** on your tracker, so they get a full set of their own.

1 How Friday runs

The day opens with the only block in the consolidation that reads before it tests, because the deferred bodies have never been studied. From then on, every block tests first.

Time	Block	What you do
0:00–0:50	First pass: deferred bodies	Read Section 4 (cards, the body grid and the Mains frame). Say each card aloud once. No other reading.
0:50–1:05	Bodies check Q	26 statements, closed book, with S/U/G marks. Mark against Key Q.
1:05–1:45	Diagnostic E	36 statements on anti-defection, elections, parties, landmark judgments, doctrines and comparisons.
1:45–2:00	Mark and tag	Ledger line for every wrong or G item, with cluster and error type.
2:00–2:40	Repair Q and E	Trap sheet Sections E–H. Cap each cluster at 15 minutes.
2:40–2:50	Break	
2:50–3:25	Machinery set M	42 statements on amendment, parliamentary system, federalism, emergency, President, VP, PM. Mark against Key M.
3:25–4:05	Repair M	These rows are Red: allow real relearning, up to 40 minutes, with trap sheet Sections A–D.
4:05–4:35	Re-tests	R-Q, R-E and R-M, only for the numbers you failed or guessed.
4:35–4:50	Close the ledger	Wrong twice → Phase 2 queue. Note the two weakest clusters for Saturday's mixed test.

Same rules as Thursday

S (sure), U (unsure), G (guessed). A correct G counts as wrong. Error types K, C, R, O, G. A cluster below 50% is a relearning job: 30 minutes at most, the rest to Phase 2.

Exit check for Friday

Bodies check Q at 70% or more after the first pass · re-test accuracy 80% or more · guessed-correct under 10% · every open ledger line has a next action.

What the numbers say

Prelims weight in this slice sits in three rows: **amendment**, **President** and the **PM/CoM** machinery. Of those, amendment and federalism are Red. The bodies rows are light in Prelims, except the new organisation–function tables (2025, 2026).

Why the Mains column matters here

This slice holds **64** of the 134 Polity Mains questions. Parties and pressure groups, doctrines and comparisons, anti-defection and the accountability bodies are all Mains-heavy and Prelims-light. That is why Section 4 frames the bodies for Mains, not just for facts.

4 First pass: the deferred bodies

Read once, aloud. Each card gives the plain idea, a phrase to hold it, and the exam line. The grid after the cards is the Prelims core; the frame at the end is the Mains core.

NITI Aayog (2015)

Plain: A think-tank that replaced the Planning Commission. It advises and convenes; it does not hand out money.

Phrase: '*Advise, not allocate*'

Exam line: NITI Aayog is an executive body (Cabinet resolution, 2015) chaired by the PM; its Governing Council of all Chief Ministers makes it a forum of cooperative federalism, but it has no power over funds.

NHRC (1993)

Plain: A watchdog that inquires into rights violations by public servants and recommends action.

Phrase: '*Inquires and recommends*'

Exam line: The NHRC is a statutory body under the PHRA 1993; its recommendations are not binding, it cannot look at cases older than a year, and it depends on governments acting on its reports.

Information Commissions (2005)

Plain: Appeal bodies under the RTI Act that decide when information must be disclosed.

Phrase: '*Last word on disclosure*'

Exam line: The 2019 amendment let the Union set the Commissioners' term and pay, and the DPDP Act, 2023 made personal information exempt under s. 8(1)(j); both are read as reducing their autonomy.

CVC (1964 / 2003)

Plain: The apex vigilance body that supervises anti-corruption work in the Union government and oversees the CBI's corruption cases.

Phrase: '*Supervises, does not prosecute*'

Exam line: The CVC, statutory since 2003 after Vineet Narain (1997), superintends the CBI in Prevention of Corruption Act cases but has no investigating wing of its own.

CBI (1963)

Plain: The Union's main investigating agency, working under the DSPE Act, 1946.

Phrase: '*A police force on consent*'

Exam line: The CBI needs state consent (s. 6 DSPE Act) except when a constitutional court orders a probe, which makes consent withdrawal a federal flashpoint (Mains 2021).

Lokpal (2013 Act, 2019 working)

Plain: An ombudsman that inquires into corruption complaints against Union public servants, including the PM with safeguards.

Phrase: '*Ombudsman with a long gestation*'

Exam line: The Lokpal is a statutory body that took five years to constitute; it relies on the CBI and others for investigation, and the Lokayukta network in the states remains uneven.

Understand and reproduce flexibly

D-W-B-H-G-G-R-J, built for questions like Mains 2014 (NHRC), 2020 (RTI amendment), 2021 (NHRC limits, CBI consent).

Step	Content
Definition	Bodies outside the elected executive that hold power to account by inquiry, supervision or disclosure.
Why	Elections hold governments to account every five years; these bodies do it continuously, between elections.
Basis	Statutes (PHRA 1993, RTI 2005, CVC 2003, Lokpal 2013, DSPE 1946) and SC directions (Vineet Narain 1997).
How	Inquiry (NHRC, Lokpal), supervision (CVC), disclosure orders (CIC), investigation (CBI).
Gains	RTI made information a right; CVC and Lokpal created standing anti-corruption review; NHRC gave victims a forum outside courts.
Gaps	Executive-heavy selection panels; recommendatory powers; vacancies and backlogs; dependence on the CBI; the 2019 RTI and 2023 DPDP changes.
Reforms	**Fixed statutory tenure and pay** for Information Commissioners — Parliament, by amending the RTI Act — so the Union can no longer vary terms and commissioners answer only to the statute. **Binding-unless-reasoned NHRC findings** — Parliament, by amending the PHRA — so a government that rejects a finding must give written reasons before the legislature. **A statutory CBI with its own Act** — Parliament, after the Second ARC and the Parliamentary Standing Committee — so consent rules and oversight are fixed in law and reviewable by courts.

Step	Content
Judgement	These bodies have widened accountability, but their independence is only as strong as the statute and the selection panel behind them.

E4	E	Kihoto Hollohan (1992) held that the Speaker's decision under the Tenth Schedule is subject to judicial review.		
E5	E	In 2025 the SC held that courts cannot set any timeline for a Speaker on disqualification petitions.

E28	E	Colourable legislation: what cannot be done directly cannot be done indirectly (Gajapati Narayan Deo, 1953).		
E29	E	Eclipse applies equally to post-Constitution laws that violate Fundamental Rights.		
E30	E	Severability: only the offending part of a law falls if it can be separated (R.M.D.C., 1957).
